Power Plate Pro5 Air Adaptive Vibration Platforms
six (6) camera optical Vicon
Motion Analysis System (Vicon, Oxford, UK)
two (2) AMTI OR-6 force places (Advanced Mechanical Technology, Watertown, MA)
Vicon Motion Capture System is integrated with 2 AMTI force plates and a 16 channel Noraxon Telemyo EMG Collection System. This allows our researchers to analyze all factors of human Movement.
3 Dartfish Motion Analysis Software (Dartfish, Fribourg, Switzerland) systems for use in 2-D and athletic motion analysis situations
Noraxon sixteen (16) Channel Telemetry EMG collection system

sixteen (16) Channel Noraxon TeleMyo Telemetry System with SEMG, accelerometer, goniometer and Foot Switch/Sole components
NeuroCom EquiTest System (NeuroCom International, Clackamas, OR)
