M.S. in Sport & Recreation Administration

The M.S. in Sport & Recreation Administration provides students the opportunity to learn and develop recreation program administration competencies to pursue careers in leisure, recreation, health, tourism and related professions. The program affords a unique opportunity to unite classroom instruction and practical in-field applications while working with an experienced and nationally renowned faculty committed to working closely with each student. All students are encouraged to attend professional conferences, workshops and achieve professional credentials. These opportunities augment the knowledge base and skills developed and add value to your degree option. **Total Hours: 36**
